Kind Attn: Chief Executive Officer

Dear Ma'am,

Sub: Way 2 Save - Energy Improvement Program

We have been satisfactorily using the products and services supplied by Conzerv Systems Pvt Ltd, since past 2 years. Recently, we had been offered Conzerv's web based Energy Improvement Program called Way 2 Save, through which the following recommendations were put forward:

- Optimizing the operations of the ovens to ensure efficient power usage
- Eliminating the idle running of various equipments
- Reducing the distribution losses of the plant by proper monitoring and accounting of energy consumption
- Installing multifunction meters to identify the smallest change in specific energy consumption
- Installation of various sensors for precision monitoring and control

These recommendations identified several energy saving opportunities. The total potential savings was estimated to be **USD 9,600 per annum**. We are convinced with the observations and hence we are in the process of implementing these measures to realize energy savings.

Thanking You

Yours sincerely,

For PT Mayora Indah Tbk
